How cool are bees?!

Pray and goodbye

*I put my hand down and she,
more or less, crawled onto it right away.*

Children

This Weeks Video:

A Lady has a
bee as a pet?!

Quirkykingdom.com

Get Ready to be an inventor!

Can you create something:

green grass goes in

white liquid come out

You have 5 Minutes to draw your idea!

Here is what some other kids did:

A close-up photograph of a brown and white cow's head, looking directly at the camera. The cow is positioned behind a wooden fence. In the foreground, on the fence, sits a tall glass and a pitcher, both filled with white milk. The background is a bright, sunny outdoor scene with a green field, a line of trees, and a blue sky with scattered white clouds.

Here is what
God did!

Remember the bee video ?
What can you tell me about bees?

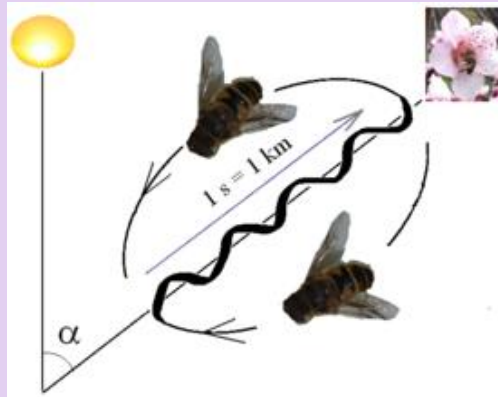

Did you know that bees:

Honey never goes bad

have 2 sets of wings with teeth that lock to fly

Talk to each other through dance

Have two stomachs one for food, and one for nectar

What we learned today!

The living things we see around us are amazingly complicated

Because they are so complicated, it would be strange to say that they happened by accident

Instead, we can see that they were created by someone with a really smart plan... God!

What would you like prayer for today?

- Bullying?
- Sickness?
- Trouble with a friend?
- A family member?
- Something happening in the world?
- _____ ?
